- Diamond Bond Technology: beautiful and clean home, long-lasting protection for 15 years, and energy-saving for 32%
- Solar heat reflection of more than 97% with Ceramic Cooling Technology
- Cool home by dark shades with TSR Technology
- Dust resistance and self-cleaning
- Water and dirt resistance
- Excellent hiding power
- Scrub resistance, vivid color film

BegerCool UV Shield Ultra Premium Grade for Exterior and Interior

- Solar heat reflection of more than 96.5% and energy-saving with a maximum of 25%
- Total UV ray protection (UVA, UVB, and UVC)
- Colorful and clean home with Advanced Nano Silicone Technology
- Breathable film, leakage protection
- Film peeling protection with Cross Link Technology
- Long-lasting protection for over 15 years

BegerCool DiamondShield Ultra Premium Grade for Exterior and Interior

- Diamond Bond Technology: beautiful and clean home, long-lasting protection for 15 years, and energy-saving for 32%
- Solar heat reflection of more than 97% with Ceramic Cooling Technology
- Cool home by dark shades with TSR Technology
- Dust resistance and self-cleaning
- Water and dirt resistance
- Excellent hiding power
- Scrub resistance, vivid color film

BegerShield Weatherguard Premium Grade, Suitable for Exterior and Interior

- Small pigment with Nano Technology
- Smooth finish, easy to apply
- Excellent hiding power with Super Titanium Technology
- UV protection for a long-lasting colorful home with the latest technology from the USA
- Excellent adhesion power, all weathering resistance for over 10 years
- Excellent dirt pickup

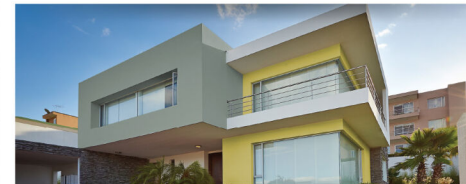

Synotex Shield Premium Grade, Suitable for Exterior and Interior

- Ultra-durable pure acrylic with resistance to pollution and weathering
- Smooth film
- Dirt repellent on film
- Easy washable and Self-Cleaning Technology
- Fungi and algae resistance
- Low VOCs
- Long-lasting protection for 10 years

Synotex Shield Max Premium Grade, Suitable for Exterior and Interior: Max Durability with Triple Lock Reaction of Special Titanium

- Durable and vivid film, UV protection
- Excellent adhesion power with Titanium Cross Link Technology
- Dirt repellent on film and advanced self-cleaning
- Low VOCs
- Stain, oil and dirt resistance, waterproofing
- Fungi and algae resistance

BegerCool All Shield Plus Semi-Gloss Premium Grade, Suitable for Exterior and Interior

- Solar heat reflection of 96% with Ceramic Cooling Technology
- Heat reduction on the surface by 12°C, energy-saving up to 25%
- Easy washable, stain resistance, excellent dust pickup
- Smooth film
- UV protection, long-lasting colorful home

BegerCool DiamondShield Premium Grade, Suitable for Exterior and Interior

- Solar heat reflection of 95.5% with Ceramic Cooling Technology
- Heat reduction on the surface by 12°C, energy-saving up to 25%
- Easy washable, stain resistance, excellent dust pickup
- Smooth film
- Excellent hiding power
- Fungi and algae resistance

BegerCool All Plus Premium Grade, Suitable for Exterior and Interior

- Solar heat reflection of 95.5% with Ceramic Cooling Technology
- Heat reduction on the surface by 12°C, energy-saving up to 25%
- Easy washable, stain resistance, excellent dust pickup
- Smooth film
- Excellent hiding power
- Fungi and algae resistance

Beger Flexi Shield Premium Grade, Suitable for Exterior and Interior

- Solar heat reflection of more than 94.2% and energy-saving with a maximum of 25%
- Elastic property covering hairline cracks and pores on surfaces like light weight block
- Colorful and clean home with Advanced Nano Silicone Technology
- Dirt and stain repellent
- Efflorescence and alkali resistance
- Fungi and algae resistance, no lead and mercury added

BegerCool All Shield Plus Standard Grade for Exterior and Interior

- Solar heat reflection of 95.5% with Ceramic Cooling Technology
- Heat reduction on the surface by 12°C, energy-saving up to 25%
- Excellent hiding power, easy to apply, flame protection
- Smooth film, weathering resistance
- UV protection, long-lasting and durable colorful film

BegerCool All Plus Standard Grade, Suitable for Exterior and Interior

- Solar heat reflection of 95.5% with Ceramic Cooling Technology
- Heat reduction on the surface by 12°C, energy-saving up to 25%
- Excellent hiding power, easy to apply, flame protection
- Smooth film, weathering resistance
- UV protection, long-lasting and durable colorful film

Beger Decorative Paints

For Exterior and Interior

Nano Pro Shield

Premium Grade for Exterior and Interior

- High-quality 100% pure acrylic paint Semi-gloss
- Excellent hiding power with Ti-Pure® Super Titanium from DuPont™
- Easy to apply, smooth film, dust repellent
- Easy washable, scrub resistance
- Self-cleaning
- Excellent adhesion power
- UV protection, long-lasting colorful film in all shades
- Fungi and algae resistance
- Durable film for over 10 years

Nano-1 Shield

Premium Grade for Exterior and Interior

- High-quality 100% pure acrylic paint Semi-gloss
- Excellent hiding power with Ti-Pure® Super Titanium from DuPont™
- Easy to apply, smooth film, dust repellent
- Easy washable, scrub resistance
- Self-cleaning
- Excellent adhesion power
- UV protection, long-lasting colorful film in all shades
- Fungi and algae resistance
- Durable film for over 10 years

Nano Pro

3-5 Year Premium Grade for Exterior and Interior

- Good hiding power
- High build film, greater area coverage
- Durable pigment (Cover Guard Formula), heat resistance, long-lasting vivid film
- Special nano acrylic resin, deep penetration, excellent adhesion power, film peeling protection
- Fungi and algae resistance

Beger Super Hi-Shield

5 Year Standard Grade Semi-Gloss for Exterior and Interior

- Excellent hiding power with Super Titanium Technology
- Solar heat protection, cool home, energy-saving
- Washable, excellent dust pickup
- Easy washable
- Water and moisture resistance
- Fungi and algae resistance
- No lead and mercury added

Beger Super Hi-Shield

5 Year Standard Grade Matt for Exterior and Interior

- Excellent hiding power with Super Titanium Technology
- Solar heat protection, cool home, energy-saving
- Washable, excellent dust pickup
- Easy washable
- Water and moisture resistance
- Fungi and algae resistance
- No lead and mercury added

Delight Titanium

3-5 Year Standard Grade Matt for Exterior and Interior

- The best hiding power innovation with Super Titanium Technology
- Good adhesion power
- Long-lasting durable colorful film
- Easy to apply
- Fungi and alkali resistance

Nano-1

Premium Grade 100% Acrylic Emulsion Paint for Exterior and Interior

- Special nano acrylic resin, deep penetration, film peeling protection
- Durable pigment (Cover Guard Formula), long-lasting vivid film
- Good hiding power, greater area coverage
- Solar heat reflection
- Fungi and algae resistance
- No lead and mercury added

BegerShield 5 Stars Semi-Gloss

8 Year Medium Grade 100% Acrylic Emulsion Paint for Exterior and Interior

- Solar heat reflection of more than 95.1% and energy-saving with a maximum of 38%
- Washable up to 200,000 times, TIS. 2321-2549 and 2514-2533 certification
- Special durable acrylic resin
- Water and alkali resistance
- All weathering resistance
- Fungi and algae resistance
- No lead and mercury added

BegerShield 5 Stars Matt

5-7 Year Standard Grade 100% Acrylic Emulsion Paint for Exterior and Interior

- Solar heat reflection of more than 95.1% and energy-saving with a maximum of 38%
- TIS. 2321-2549 and 2514-2533 certification
- Special durable acrylic resin
- Water and alkali resistance
- All weathering resistance
- Fungi and algae resistance
- No lead and mercury added

Ben-Tone Plus

3 Year Economy Grade Matt for Exterior and Interior

- Good hiding power, greater area coverage
- Good adhesion power
- Smooth and vivid film
- Fungi and alkali resistance
- No lead and mercury added
- Worth for money

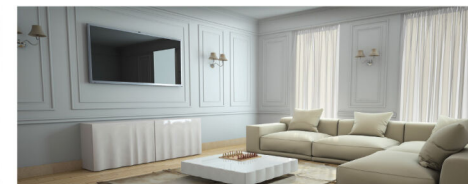

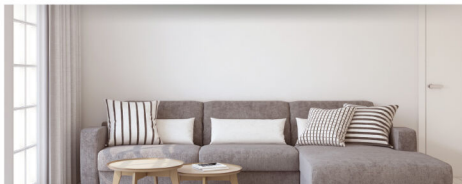

BULL Acrylic Emulsion

3 Year Economy Grade Matt for Exterior and Interior

- Good hiding power, greater area coverage
- Good adhesion power
- Smooth and vivid film
- Fungi and alkali resistance
- No lead and mercury added, resident-friendly
- Worth for money

Beger Decorative Paints

For Interior

BegerShield AirFresh Anti-Virus Gold iON Ultra Premium Grade Acrylic Emulsion Paint for Interior

- Only one interior paint with anti-virus, SARS-CoV-2, of 99.98%*

Gold and Metallic Paints

Beger Super Gold

Acrylic Emulsion for Concrete, Sanctuary, Pagoda, and Gable Apex

- Charming shiny gold film with smooth finish
- Excellent adhesion power, fungi resistance, all weathering resistance
- UV protection, fading protection

Beger Super Gold

Acrylic Enamel for Coating on Top of Old Concrete, Alloy, Aluminum, Brass, and Stainless

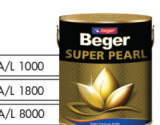

- Glossy shiny gold film
- Suitable for coating on top of all surfaces, including slow-drying enamel paint and anti-rust primer
- Weathering resistance, solar and UV protection

Beger Super Gold

Acrylic Lacquer for Concrete, Metal, Aluminum, Zinc, and Wood

- Charming shiny gold film
- Fast-drying film, excellent adhesion power, applicable for brush and spray, multipurpose paint for all surfaces like concrete, metal, and aluminum
- Suitable for exterior and interior

Beger Super Pearl

Ultra Premium Grade Acrylic Pearl Paint for Concrete, Metal, Aluminum, Zinc, and Wood

- 100% pure acrylic
- High-quality metallic pigment
- Solar protection, fading protection
- No lead and mercury added

Beger Super Gold Spray

- Glossy Swiss Gold film
- Fast drying, excellent adhesion power
- Good hiding power, smooth film, high-quality acrylic with fading protection

BegerShield Gripteck 2IN1 Gold Paint

- Charming shiny gold film
- Excellent adhesion power, paint and primer in 1
- Fast drying, recoating within 30 minutes
- Smooth film, easy to apply, greater area coverage
- Applicable for brush, spray, and roller

Beger Decorative Paints

Solvent-Based Primers

Beger Water Block Primer B-3100 Super Ultra-Premium Grade Multipurpose Primer with Moisture Resistance of 75%

- Suitable for all concrete like new concrete, old concrete, or wet concrete
- White pigment, excellent adhesion power and hiding power
- Fungi and algae resistance
- Efflorescence and alkali resistance
- Surface issue prevention like blistering and peeling
- No.1 moisture resistance of 75%
- Moisture-released breathable film
- Low odor more than general solvent-based primer

Beger Super Quick Primer B-2100 10 Year Ultra-Premium Grade Multipurpose Solvent-Based Primer with Moisture Resistance for Exterior and Interior

- Suitable for new concrete and deteriorated old concrete
- Moisture resistance of 40%
- Applicable after plastering for 2 days
- 2 times of hiding power
- Deep penetration, excellent adhesion power, 10-year durability
- Efflorescence and alkali resistance
- Fungi and algae resistance
- Surface issue prevention like blistering, peeling, and chalking

Beger Pro Quick Primer B-1900 10 Year Ultra-Premium Grade Multipurpose Solvent-Based Primer for Exterior and Interior

- Suitable for new concrete and deteriorated old concrete
- Moisture resistance with a maximum of 35%
- 2 times of hiding power
- Deep penetration and excellent adhesion power on fiber cement and all concrete
- Good adhesion power between old and new concrete

Beger White Contact Primer B-1700 Ultra Premium Grade Solvent-Based Primer with Pigment for Exterior and Interior | Old Concrete

- Pigmented primer, restorable old painted wall
- Easy to inspect after painting
- Deep penetration, excellent adhesion power
- Fungi and algae resistance
- Surface issue prevention like blistering, peeling, and chalking

Beger Clear Contact Primer B-1500 Medium Grade Solvent-Based Primer for Exterior and Interior

- Improved old deteriorated concrete
- Greater adhesion power, leakage protection
- Surface issue prevention like peeling and chalking
- Fungi and algae resistance

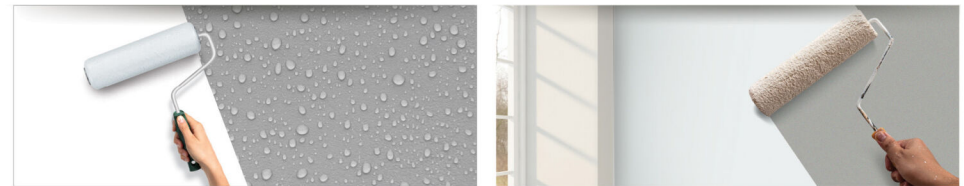

BULL Contact Primer KP100 Economy Grade Solvent-Based Primer Matt

- Good hiding power, greater area coverage
- Good adhesion power
- Smooth and vivid film
- Fungi and alkali resistance
- No lead and mercury added, resident-friendly

Beger Decorative Paints

Water-Based Primers

Beger Rain Quick Primer B-2900 Ultra Premium Grade Water-Based Primer for Exterior and Interior | Old, New, Fresh Concrete

- Surface moisture resistance up to 70%, damp moisture resistance of 25%
- Moisture-released breathable film
- Good adhesion power and deep penetration with Resin Technology from France
- White pigment, good hiding power, high build film
- Efflorescence and alkali resistance
- No lead, mercury, and heavy metal added, low VOCs

Beger Flexi Cool Primer B-2800 Premium Grade High-Flexible Water-Based Primer with Insulating White Film for Exterior and Interior

- Heat reflection for up to 94.6% with Microsphere Ceramic Technology
- High-flexible film for hiding small hairline cracks
- Low odor, no lead and mercury added, resident-friendly
- Leakage protection, fungi and algae resistance

BegerCool UV Shield #9900 Elastomeric Primer with High-Flexible Film for Exterior and Interior

- Heat insulation
- Good hairline crack hiding power
- Leakage protection
- Efflorescence and alkali resistance

BegerShield Weatherguard E-4000 Primer for New Concrete

- Nano pigment with deep penetration
- Excellent adhesion power
- Good moisture resistance
- Easy to apply

Beger Water Contact Primer B-2090 Premium Grade Water-Based Primer for Exterior and Interior | Old Concrete

- Nano pigment with deep penetration and excellent hiding power
- Greater adhesion power with top coats
- Easy to apply, smooth film
- Efflorescence, alkali, fungi, and water resistance
- Low odor, ready to move in after drying
- No lead and mercury added, resident-friendly

Beger Clear Contact Primer B-2500 Premium Grade Water-Based Primer for Exterior and Interior | Old Painted Concrete

- 100% pure acrylic, improved old concrete
- Fungi and algae resistance
- Water-based, low odor
- No lead and mercury added
- Transparent film

Beger Primer Pro-100 Alkali Resisting Primer | New Concrete

- Deep penetration, good hiding power
- 100% Efflorescence resistance
- Easy to apply, greater area coverage
- Moisture resistance

Ben-Tone Plus 2IN1 Primer 2IN1 Primer | New Concrete and Old Concrete with Good Condition

- Deep penetration, excellent adhesion power
- White film, excellent hiding power
- Applicable for new concrete and old concrete with good condition
- Alkali resistance on new concrete, peeling protection

BULL 2IN1 Primer 2IN1 Alkali Resisting Primer | New Concrete and Old Concrete

- Deep penetration, excellent adhesion power
- White film, excellent hiding power
- Applicable for new concrete and old concrete with good condition
- Alkali resistance on new concrete, peeling protection

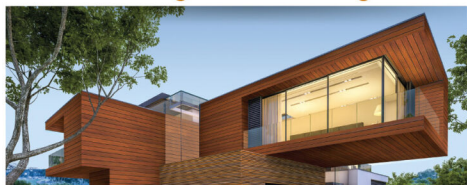

Beger Wood Coatings & Wood Care Products

Exterior and Interior Wooden Walls

● Outstanding Wood Coating

Beger WoodStain Supreme*

Ultra Premium Grade Wood Coating for Exterior and Interior Wooden Walls, Both Hardwood and Softwood

- Durability of 5 years* (More than general wood coating for 2-3 years)
- Quick drying within 3-4 hours (Compared to general wood coating of 6-8 hours)
- Thick film (2 coats of Beger Supreme equals 3 coats of general wood coating)
- Glossy film
- No lead, mercury, and heavy metals approved the EN71 safety standard from Europe

*Apply gold or blue bucket for 2 coats + green bucket for 1 coat
*Tested results from the laboratory of B.N.Brothers Co., Ltd.

● Opaque Wood Finish

Beger Color Shield*

Wood Coating for Exterior and Interior Wooden Walls (Opaque)

- All weathering resistance for long-lasting 15 years
- Easily washable with Dirt Shield Technology which was developed by DuPont®Capstone® providing smooth film and dirt pickup protection
- Scrubbable for up to 50,000 times
- Non-yellowing film
- Excellent adhesion power, lasting up to 3 times longer than solvent-based paint
- Semi gloss-semi matt film, smooth coverage on wood
- Flexible film, film cracking protection
- No lead, mercury, and heavy metals added and certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Guard*

Wood Coating for Exterior and Interior Wooden Walls (Opaque)

- All weathering resistance for long-lasting 10 years
- Easily washable with Stain Guard Technology
- Excellent adhesion power, lasting up to 3 times longer than solvent-based paint
- Semi gloss-semi matt film, smooth coverage on wood
- Non-yellowing film
- Flexible film, film cracking protection
- No lead, mercury, and heavy metals added and certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Aqua WoodStain*

Wood Coating for Exterior and Interior Wooden Walls, Both Hardwood and Softwood

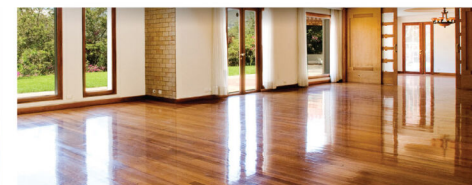

- Low odor, eco-friendly and resident-friendly certified by the EN71 safety standard from Europe
- Quick drying within 1 hour, ready to do the next step within 1 day
- Deep penetration, excellent adhesion power, flexible film with Nano-Acrylic Technology
- Transparent film, 100% crystal clear wood grain
- UV protection with UV Guard
- Fungi and insect resistance

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Coatings & Wood Care Products

Interior Floors

Beger INNOVATIVE SOLUTIONS

Beger Polyurethane 2K Supreme*

- Superior Quick-Drying 2K Polyurethane for Exterior Under the Shade and Interior Wooden Floors
- Durability of 20 years
- Hard film, scratch resistance (No. 1 of PU 2K)
- 75% glossy thick film
- Durable film resistant to impact (Tested by dropping a 300-gram weight from a height of 2 meters)
- High-quality resin from Germany
- 4 times quick drying, work finishing within 1 day
- Suitable for exterior under the shade and interior
- No lead, mercury, and heavy metals added and certified by the EN71 safety standard from Europe

*Compared to general polyurethane 2K
*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Diamond Premium Polyurethane*

- Suitable for Wooden floors, Parquet Floors, Staircase Floors, Wooden Furniture, and All Types of Wood
- Durability of 20 years
- Strong film, high scratch and impact resistance
- Glossy than general unithane for 50%
- Double Thick film
- High-quality resin from Germany
- Double-quick drying than general unithane
- Temperature, acid, alkali, and chemical resistance
- Bacteria and fungi protection
- No lead and mercury added and certified by the EN71 safety standard from Europe

*Compared to general polyurethane 1K
*Tested results from the laboratory of B.N.Brothers Co., Ltd.

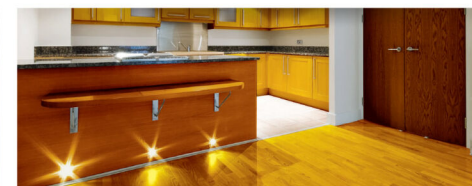

Beger Unithane B-52*

Suitable for Parquet Floors and Interior Wooden Floors Like Indoor Sport Floors, Bowling Alley Floors, Dance Floors, Staircases, and Wooden Furniture

- Durability of 15 years
- Strong and durable film
- Glossy than general unithane
- Crystal clear film, outstanding wood grain
- High-quality resin from Germany
- Anti-bacteria, fungi, and virus with Silver Ion (Ag+)
- Moisture protection
- Acid, alkali, and chemical resistance
- Easy to use, low odor than general unithane

*Compared to general polyurethane 1K
*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger B-5000 Colour Polyurethane 2K*

- Superior Quick-Drying 2K Polyurethane for Exterior Under the Shade and Interior Wooden Floors
- Durability of 15 years
- Easy to use, smooth film
- Superior gloss for gloss film
- 4 types of film: gloss, semi-gloss, matt, extra matt
- High-quality resin from Germany
- 4 times quick drying, work finishing within 1 day
- Hard film, scratch and scrub resistance
- Heat and chemical resistance
- No lead, mercury, and heavy metals added and certified by the EN71 safety standard from Europe

*Compared to general polyurethane 1K
*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger B-5000 Colour Polyurethane 2K*

- Superior Quick-Drying 2K Polyurethane with Color Pigment for Parquet Floors and Other Interior Wooden Floors
- High color harmony and consistency
- More color and value of wood, for example, transform the color of rubberwood to look like teak wood
- High-quality resin from Germany
- 100% transparent film with Crystal Clear Technology
- Natural outstanding wood grain
- Quick drying, ready to do the next step faster
- No thinner needed

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Aqua Polyurethane*

Suitable for Interior Wooden Floors Such as Parquet Floors, Staircases, Furniture, and Areas Occasionally Exposed to Sunlight

- Quick drying, ready to do the next step within 1 day
- Water-base
- Many shades, mixed by color design auto-tinting machine
- 10 years protection
- Non-yellowing film
- Heat, acid, alkali, and chemical resistance
- Easily washable
- Low odor, eco-friendly and resident-friendly certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Coatings & Wood Care Products

Exterior Floors

Beger Polyurethane 1K Supreme Outdoor*

Thick Film
The One and Only Weathering-Resistant Polyurethane Used for Outdoor

- Superior glossy film
- Long-lasting durability
- Suitable for exterior and interior wooden floor, siding, and furniture
- Applicable both real wood and fiber cement
- Low odor, quick touch-drying within 1 hour, recoat-drying within 2 hours
- 2IN1 formula, no primer needed
- Recoatable for old paint like wood coating, polyurethane, lacquer, enamel, or fiber cement
- Scratch and impact resistance
- No lead, mercury, and heavy metals added and certified by the EN71 safety standard from Europe

*Compared to general polyurethane (Outdoor application)

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger NaturalDeck*

Natural Film
Suitable for All Exterior Wooden Floors, Both Softwood and Hardwood, Like Terraces, Wooden Pathways, and Poolside Walkways

- Peeling protection, easy to clean without scrubbing, time-saving, and cost-saving
- Realistic wood texture experience
- 100% Waterproofing with Lotus Effect Technology
- UV protection in 360 degree, heavy weathering resistance
- Superior durable, deep penetration
- Non-yellowing, fungi resistance
- No lead, mercury, and heavy metals added and certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

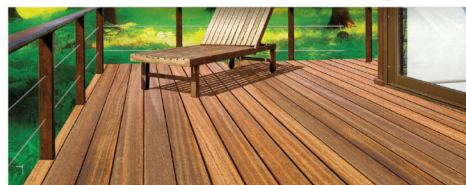

Beger SuperDeck*

Thick Film
Suitable for All Exterior Wooden Floors, Both Softwood and Hardwood, Like Terraces, Wooden Pathways, and Poolside Walkways

- High gloss film, the best gloss film of wood coating systems
- All heavy weathering resistance
- High durability for scratch resistance and impact resistance against stepping
- Flexible film, cracking protection
- Transparent film to highlight the outstanding natural wood grain
- Semi gloss and Matt film
- 100% Waterproofing
- Quick drying, easy to apply, easily washable
- Chemical resistance like chlorine
- No lead, mercury, and heavy metals added and certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger DeckStain*

Matt Film
Suitable for All Exterior Wooden Floors, Both Softwood and Hardwood, Like Terraces, Wooden Pathways, and Poolside Walkways

- Deep penetration, good adhesion power with Super Resin Technology, cracking and peeling film protection
- Superior durable with UV Guard to protect against all heavy weathering resistance
- Scrub resistance and impact resistance against stepping
- Breathable wood: repellent to water but release moisture
- Easy to apply, greater area coverage
- Anti-termite, moth, wood-boring insect, and fungi
- Smooth film, easily washable
- Eco-friendly and resident-friendly certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Aqua Deckstain

Suitable for Exterior and Interior Wooden Floors

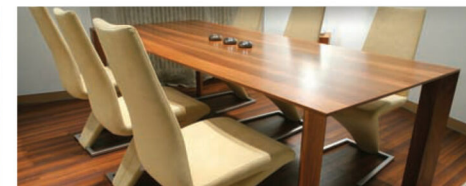

- Low odor, resident-friendly
- Quick drying within 1 hour, ready to do the next step within 1 day
- Transparent film, outstanding wood grain
- Scrub resistance and impact resistance against stepping
- Deep penetration, flexible film
- UV protection with UV Guard
- Breathable wood: repellent to water but release moisture, insect resistance
- Eco-friendly and resident-friendly certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Coatings & Wood Care Products

Interior Wooden Furniture

● Outstanding Wood Finish

Beger Lacquer* Premium Grade

Suitable for Interior Wooden Furniture Outstanding Wood Grain

- Extra high solid content, greater area coverage
- Thick film
- Quick drying, easy to scrub
- Transparent film, outstanding wood grain
- Flexible film, hairline cracking protection
- No 8 heavy metals added and certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Aqua Lacquer*

Suitable for Wooden Furniture and Interior Woodwork Like Movable Furniture, Built in Furniture, Cabinets, Tables, or Chairs

- Low odor, resident-friendly
- Scratch resistance than general lacquer
- Non-yellowing film
- High concentrated content, greater area coverage
- Quick drying within 1 hour, ready to do the next step within 1 day
- Easy to scrub, fast work finishing
- Excellent adhesion power, flexible film
- Water repellent, wood-boring insect resistance
- No 8 heavy metals added and certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

● Opaque Wood Finish

Beger Industrial Lacquer*

Suitable for Interior Decoration Like Wood and Metal Furniture or Built In

- Extra high solid content, greater area coverage
- Glossy thick film
- Excellent hiding power
- Colorful film
- Quick drying
- Excellent adhesion power, scratch resistance
- Easily washable
- More than 1,200 shades mixed by color design auto-tinting machine

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Aqua Industrial Lacquer*

High-Quality Lacquer with Ultra Premium Grade High-Pigment for Furniture and Interior Decoration of Wood

- Extra high solid content, greater area coverage
- Time-saving
- Thick and opaque film, excellent hiding power
- Non-yellowing and vivid film
- Easy to use, easy work repairing
- Quick drying, smooth film, easy work finishing
- Water repellent, wood-boring insect resistance, preserving the nature of wood
- Low odor, no chemicals from thinner and VOCs
- No 8 heavy metals added and certified by the EN71 safety standard from Europe

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Coatings & Wood Care Products

Outdoor Furniture

Beger Varnish*

Extra High Gloss

Suitable for All Exterior and Interior Furniture, Especially Rattan Furniture

- High build film, glossy outstanding wood grain
- Long-lasting wood preservation
- Acid, alkali, and chemical resistance
- Greater area coverage, easy to apply
- Applicable coating with a thin and smooth finish

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Teak Oil*

Natural Film

Suitable for Exterior and Interior Furniture, Tables, or Chairs

- Natural wood oil substitute
- Enhancing the natural color of wood
- Wood preservation against harsh weather conditions
- Water repellent
- Low odor, easy to use, no need for dilution with primer or thinner

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Primer and Surface Preparation

Beger Wood Sealer B-2000*

Primer Used Before Coating with Polyurethane or Other Paints for Wood with Gum Such As Redwood, Shorea Wood, Rosewood, Takian Wood, Merbau Wood, as Well as Wood With High Moisture Content Like Pine Wood and Rubber Wood

- Deep penetration, excellent wood gum protection
- Greater adhesion power for the top coat
- High build film, superior gloss finish
- Wood preservation
- Crystal clear film, outstanding wood grain
- No dilution
- Quick drying, easy to apply

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Sanding Sealer B-2400*

Primer Used Before Coating With Polyurethane or Other Paints for All Natural Wood Surfaces

- Superb wood pore filling, better smooth wood surfaces
- Greater adhesion power for the top coat
- Transparent film, outstanding wood grain
- Deep penetration, excellent wood gum protection
- Long-lasting durability
- Non-yellowing film, no nitrocellulose
- No dilution
- Quick drying, easy to apply

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger B-5000/599 Polyurethane 2K*

Suitable for All Natural Wood Surfaces

- Superb wood pore filling, better smooth wood surfaces
- Quick drying, easily scrubbable
- Greater adhesion power for the top coat
- Transparent film, outstanding wood grain
- Deep penetration, excellent wood gum protection
- Superb durability like polyurethane primer
- Top coat paint-saving

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Preservative B-6900*

Clear Wood Preservative Primer with Anti-fungal, Termite, Moth, and Wood-Boring Insect Protection, Used Before Wood Coating or Other Paints for All Types of Wood, Especially Softwood Such as Rubber Wood or Pine Wood

- Excellent fungi resistance
- Termite, moth, and wood-boring insect protection
- Recoatable for wood paint like wood coating, unithane, lacquer, Industrial paint, or enamel
- Clear film, low odor
- No lead and mercury added

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Coatings & Wood Care Products

Primer and Surface Preparation

Beger Unisoft*

Paint Remover for Removing All Types of Paint Like Unithane, Lacquer, Wood Coating, Enamel, or Varnish

- Fast and easy delamination
- Non-damage to the surface
- Easy to apply
- Greater area coverage

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Filler*

Ready-To-Use Wood Filler for Cracks and Nail Head Holes, Both Exterior and Interior

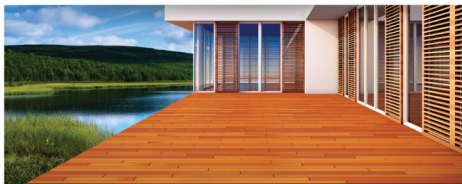

- Easy applicable: just scoop out and knead together
- Excellent adhesion power
- Quick drying, easily scrubbable, smooth finish, non-sinking
- No stain on wood surface
- Drillable, sawable, paintable, and available in 4 shades: Teak, Mahogany, Walnut, and Pine

*Tested results from the laboratory of B.N.Brothers Co., Ltd.

Beger Wood Coatings & Wood Care Products

Fiber Cement Decking / Fiber Cement Board

Beger Decking Fiber Cement

Suitable for Coating Fiber Cement Board and All Types of Smart Wood, Both Exterior and Interior

- Special formula used for fiber cement and all types of smart wood
- Transparent pigment, high build film, real wood-like look
- Deep penetration, good adhesion power, cracking protection
- Excellent impact resistance against stepping
- Weathering resistance, UV protection
- Fungi and algae resistance
- No lead and mercury added

Beger WoodStain Fiber Cement

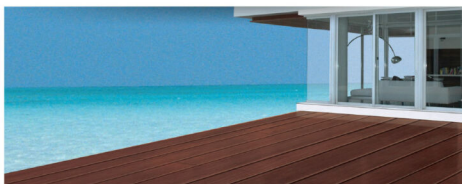

Suitable for Coating Fiber Cement Board and All Types of Smart Wood, Both Exterior and Interior

- Special formula used for fiber cement and all types of smart wood
- Transparent pigment, high build film, real wood-like look
- Deep penetration, good adhesion power, cracking protection
- Excellent impact resistance against stepping
- Weathering resistance, UV protection
- Fungi and algae resistance
- No lead and mercury added

Beger Fiber Cement Filler

Flexible Acrylic Filler for Fiber Cement Board

- High content, easy to fill, ready to use
- Quick drying, non-sinking, easily scrubbable
- Crack, hole, and joint filling with a smooth and seamless finish
- Suitable for exterior and interior

Synotex Fiber Cement

Suitable for All Types of Fiber Cement Board Like Fiber Composite Boards, Laths, or Cornices

- Vivid and smooth film, real wood-like look, excellent dirt pickup
- 10 years durability with super premium grade 100% pure acrylic
- High water repellent
- Scrub resistance, easily washable
- Fungi and algae resistance
- The same standard as top-grade fiber cement board factories
- No lead and mercury added, low VOCs
- Water-based paint, eco-friendly
- Suitable for exterior and interior

Synotex Fiber Cement Decking

Suitable for All Types of Fiber Cement Board

- Vivid film, real wood-like look
- Scratch resistance, impact resistance against stepping
- UV protection, water repellent
- Water-based paint, low odor, eco-friendly, resident-friendly
- Super premium grade 100% pure acrylic, excellent adhesion power
- Fungi and algae resistance
- The same standard as top-grade fiber cement board factories
- No lead and mercury added, low VOCs
- Suitable for exterior and interior

Beger Wood Coatings & Wood Care Products

Termite Prevention (Brush)

Beger INNOVATIVE SOLUTIONS

BegerDrite Wood Preservative

For Termite and Fungi Prevention (Wood)

- Termite and fungi prevention with the insecticide - Thiacloprid
- Ready to use, no dilution with water or other substances
- Protection against wood decay caused by mold, including rotting mold, with deep penetration into the wood to prevent termites, moths, and wood-boring insects
- Available in 3 shades: clear, light brown, dark brown

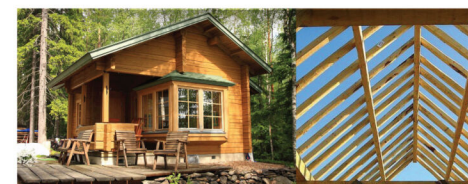

BegerDrite Wood Preservative Water-Based

For Termite and Fungi Prevention (Wood)

- Termite and fungi prevention with the insecticide - Thiacloprid
- Ready to use, no dilution with water or other substances
- Protection against wood decay caused by mold, including rotting mold, with deep penetration into the wood to prevent termites, moths, and wood-boring insects
- Available in 3 shades: clear, light brown, dark brown

Termite Prevention (Pour/Spray)

BegerDrite Prevent Plus 200 EC

Termite Soil Treatment (Penetration in Soil) for Construction and Post-Construction

- Effective termite prevention with the insecticide - Fipronil
- Non-repellent effect
- Domino effect
- Solvent-based, long action
- 2-3 years durability

BegerDrite Prevent Plus SC 200

Termite Soil Treatment (Penetration in Soil) for Construction and Post-Construction

- Effective termite prevention with the insecticide - Imidacloprid
- Non-repellent effect
- Domino effect
- Water-based, long action
- 3-5 years durability

BegerDrite Spray

Insecticide Sprayer for Termite, Moth, Ant, Wood-Boring Insect, and Cockroach Protection

- 12 weeks of long action mechanism for termite treatment
- 4 weeks of long action mechanism for cockroach treatment

Beger Construction Chemicals

Sealant Products

BegerCool Flex Shield

Super Flexible 1K Cement with Waterproofing for Decks, Terraces, Floors, Walls, Toilets, Water Tanks, and Swimming Pools

- 100% waterproofing, extra flexible film, high crack coverage
- Excellent adhesion power, applicable for concrete, tile, or plaster
- No primer needed
- Solvent-based, resident-friendly, all weathering resistance, suitable for exterior and interior

Beger Super Flex 2K

Super Flexible 2K Cement with Waterproofing for Decks, Terraces, Floors, Walls, Toilets, Water Tanks, and Swimming Pools

- 100% waterproofing, extra flexible film, high crack coverage
- Excellent adhesion power, applicable for concrete, tile, or plaster
- No primer needed
- Solvent-based, resident-friendly, all weathering resistance, suitable for exterior and interior

Beger RoofSeal Cool Polyurethane Hybrid Waterproofing Polyurethane Hybrid for Roof and Deck

- 100% Waterproofing
- 600% flexibility
- UV Block and weathering resistance (TIS. 2321-2564)
- Indoor heat reduction (TIS. 2514-2564)
- Heat reflection for up to 94.6%, energy-saving
- Waterproofing for 60 days
- Long-lasting lifespan for 7 years
- Suitable for wall, floor, deck, and roof

W-005
(Water-Based)

Beger Water Repellent Water Repellent with Fungi and Algae Resistance

- Excellent waterproofing and moisture resistance, fungi and algae resistance
- Non-yellowing film
- Suitable for sandstone tile, slate tile, polished cement wall, or wash gravel

W-006
(Solvent-Based)

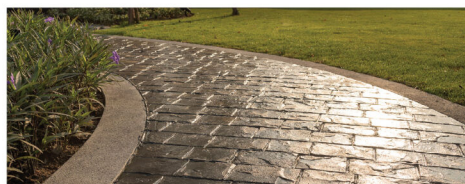

Beger Water Block W-010 Damp Resistant Primer for Concrete, Fiber Cement Boards, Light Weight Bricks, or Roof Tiles

- 40% of moisture resistance (Polymer mixed with solvent-based polysiloxane)
- Excellent adhesion power, long-lasting lifespan of top coat
- Quick drying, transparent film with light yellow pigment
- Ready to use, easy to apply, no dilution with thinner
- Efflorescence and alkali resistance

Beger Mouldfree M-001 Mould and Algae Killer

- Highly effective mould and algae removing
- No need to wash off, providing longer-lasting protection against mould on the surface
- Deep penetration into the surface, long-lasting protection
- Water-based, low odor, resident-friendly

Beger Roof Guard W-001

Ultra Flexible Acrylic with Waterproofing

- 100% waterproofing
- 5 times greater flexibility and crack coverage when used with fiber mesh
- UV Block and weathering resistance (TIS. 2321-2564)
- Indoor heat reduction (TIS. 2514-2564)
- Good adhesion power, peeling protection, impact resistance against stepping

Beger A-200 PU Hybrid

(Water-Based, Low Odor)

Water Repellent Gloss for Walls and Floors

- The first water repellent gloss blended with polyurethane
- Durable and strong film with the latest Technology
- Glossy finish, non-yellowing film
- Excellent adhesion power, deep penetration, peeling protection
- Weathering resistance, UV protection
- Suitable for cement, stamped concrete, clay tile, brick block

Beger A-100 Water Repellent

(Solvent-Based)

Water Repellent Gloss for Walls

- Durable glossy film with Acrylic Super Gloss Technology
- Excellent adhesion power, UV protection, chemical resistance
- Ready to use, no dilution, available for applications like brushing, spraying, and rolling
- Suitable for sand tile, wash gravel, brick wall

Beger Acrylic Filler F-200 For Cracks Width 0.3-2 MM.

- High flexibility, excellent crack coverage
- Quick drying, non-sinking, chalking protection
- Excellent adhesion power with concrete, plaster, gypsum board, fiber cement board, and top coat paint
- Non-yellowing film
- Easy to use with a steel trowel
- No lead and mercury added
- Suitable for exterior and interior

Beger Acrylic Sealant F-001

For Cracks Width 2-10 MM.

- High flexibility, excellent crack coverage
- Non-shrinking, easy to scrub
- Excellent adhesion power, cracking and peeling protection
- Easy to use with a steel trowel
- Non-yellowing film
- No lead and mercury added
- Suitable for exterior and interior

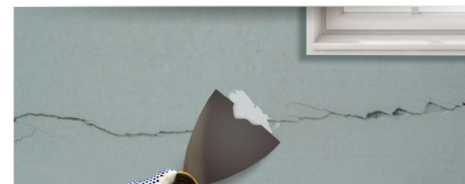

Beger Acrylic Seal

Flexible Acrylic Sealant for Small and Large Cracks

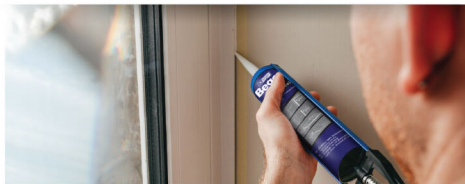

- High flexibility, non-sinking, great crack coverage
- Quick drying, excellent adhesion power
- Recoatable, non-yellowing film
- Low VOCs under the RoHS standard
- Weathering resistance, UV protection
- Suitable for exterior and interior
- Low odor

Crack Fillers

Beger Construction Chemicals

Crack Sealants

Beger PU Seal
Crack Sealant for Various Surfaces Like Concrete, Bricks, Fiberglass, Aluminium, Viva Board, Fiber Cement, Wood and Metal Door Frames, Roof Joints, or Metal Sheet

- 800% of flexibility
- UV protection, all weathering resistance
- Non-yellowing film, recoatable
- Excellent adhesion power
- Suitable for various surfaces

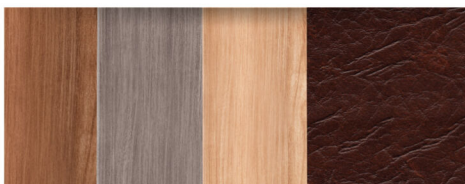

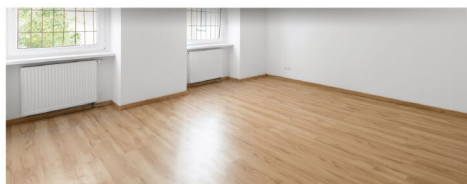

Beger Silicone Seal
Silicone Sealant for Mirror Joints, Window Mirrors, Air Conditions, and Various Surfaces Like Glass, Tiles, Ceramics, Aluminium, or Fiberglass

- UV and all weathering resistance
- Excellent adhesion power
- Suitable for exterior and interior

Beger Premium Silicone Seal
High-Quality Acidless 100% Silicone Sealant for Industries, Vehicles, Electronics, All Metals, Sanitary Ware, Troughs, Roofs, Glass, and Metal Tanks

- 100% silicone with acidless
- Odorless, chemical resistance, non-corrosive to all types of metals
- UV and all weathering resistance
- High flexibility
- Excellent adhesion power

Beger Adhesive (Premium Quality)
Suitable for Various Materials Like Laminate, Plywood, Cork Wood, uPVC, Rubber, Leather, Plastic, PU Foam, or Fabrics

- Superior adhesion power, especially for laminate
- Temperature resistance
- Low odor
- Long-lasting durability

Beger Adhesive (General Purpose)
Suitable for Various Materials Like Laminate, Plywood, Cork Wood, uPVC, Rubber, Leather, Plastic, PU Foam, or Fabrics

- Excellent flexibility for bending
- Easy to apply
- Low odor
- Suitable for various materials

Beger Construction Chemicals

Skim Coat Products

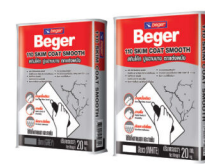

Beger Skim Coat 101
Acrylic Mixed with Cement

- Excellent adhesion power, peeling and chalking protection, non-yellowing film
- Smoothly applicable, easy to scrub, recoatable
- Thick and thin skim with Advance Get Thick Technology
- Suitable for exterior, interior, and outdoor
- No lead and mercury added

Beger Skim Coat 102
Ready-To-Use Acrylic

- Excellent adhesion power, peeling and chalking protection
- Ready to use, no dilution
- Non-sinking, smoothly applicable, easy to scrub, recoatable within 24 hours
- Better surfaces with smooth finish, suitable for thin plastering and exposing bare surfaces
- Suitable for exterior and interior, white pigment, paint-saving
- No lead and mercury added

Beger 110 Skim Coat Smooth
Cement Based Modified Polymer for Thin Plastering Application to Cover Hairline Cracks and Pinholes

- Smoothly applicable, easy to scrub
- Weathering and UV resistance
- Width of 1-2 mm. in one-coat application
- Greater area coverage
- Excellent adhesion power with the surface and top coat paint
- Available to exposing bare surfaces

Bull 110 Skim Coat
Cement Based Modified Polymer for Thin Plastering Application to Cover Hairline Cracks and Pinholes

- Smooth skimmable, easy to scrub
- Width of 1-1.5 mm. in one-coat application
- Greater area coverage
- Suitable for exterior and interior

Beger Construction Chemicals

Cement Tile Adhesives and Tile Grouts

High adhesion

Beger Tile-Bond

Tile Grout with Superb Adhesion for Filling Gaps with a Width of 2-10 MM.

- High adhesion power, flaking protection, non-shrinking
- Smooth finish, easy to clean
- Suitable for filling gaps with a width of 2-10 mm.

Beger Tile-Bond Plus

Tile Grout with Anti-fungal and Anti-bacterial for Filling Gaps with a Width of 1-6 MM.

- Black fungi and bacteria protection
- High adhesion power, flaking protection, non-shrinking
- Water penetration resistance
- Acid and cleaner resistance

Beger Cement Tile-Bond Expert T-100

For 90 x 90 CM Floor Tiles

- Great adhesion power, durability, flaking protection
- Flexibility, easy to tile
- Usable for ceramic tile, marble tile, and granite tile
- Suitable for exterior and interior floors and walls

Beger Cement Tile-Bond Super T-200

For Ceramic Floor Tiles and Terracotta Tiles For the Pool with a Maximum of 100 x 100 CM

- Greater adhesion power for large tiles
- Great adhesion power, durability, flaking protection
- Usable for granite tile, marble tile, granite tile, or natural stone tile

Beger Cement Tile-Bond Premium T-300

For Extra Large Floor and Wall Tiles with a Maximum of 120 x 120 CM

- No tile demolition needed, suitable for various surfaces like tile, plywood, and fiber cement
- Greater adhesion technology, flaking protection, firm tile adhesive texture
- High flexibility, resistant to vibration and heavy traffic areas
- All-weathering resistance to both exterior and interior

Beger Construction Chemicals

Repair Products

Beger Repair Mortar

Multi-Purpose Non-Shrink Repair Mortar for Repairing Structural Concrete

- Excellent compressive strength bearing, high adhesive bond
- Easy to apply both horizontally and vertically
- Suitable for posts, beams, concrete structures, and tile
- Easy to use, just thoroughly mix with water

Other Products

Beger Oil Spray

Oil Lubricant Spray for Exterior Like General Machine Components, Machines, Saw Blades, Chains, or Gears

- Anti-rust
- Excellent lubrication for loosening knots and various joints
- Anti-moisture, easy car starting

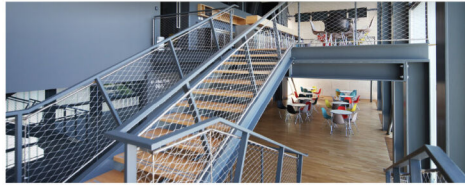

Beger Fiber Mesh

Fiberglass reinforcement for cracks and joints

Beger Metal Coating Products

Top Coat and Primer In One

BULL Rust Tech 2IN1

Anti-Rust Primer and Paint In One

- High solid content, easy to apply, smoothly applicable
- Excellent adhesion power, peeling protection, non-yellowing film
- Available for all applications, including brushing, dipping, spraying, and rolling
- Strong film, excellent adhesion power, scratch resistance
- Recoatable within 30 minutes (Compared to general paint of 8-10 hours)
- Suitable for galvanize, stainless steel, zinc, copper, black steel, fiber cement, wood

BegerShield Griptech 2IN1

Anti-Rust Primer and Paint for All Metal Surfaces

- High solid content, easy to apply, good hiding power
- All-weathering resistance to both exterior and interior
- Excellent adhesion power, no primer needed
- Chemical and corrosion resistance
- Superb rust resistance
- Suitable for all metal surfaces, including high-gloss metals
- Quik drying film
- Suitable for galvanize, stainless steel, zinc, copper, black steel, fiber cement, wood

Delight Titanium Enamel

Suitable for Woodwork, Metalwork, and General Applications That Require Exceptional Durability

- Deeper penetration and greater adhesion with Super Titanium Technology
- Excellent hiding power
- Solar heat reflection
- Acid and alkali corrosion resistance

Ben-Tone Plus Enamel

Gloss Enamel with Special Alkyd Resins for Woodwork and Metalwork, Both Exterior and Interior

- Weathering resistance, Glossy film
- Quik drying film, fast work finishing
- Fungi resistance
- Eco-friendly, resident-friendly

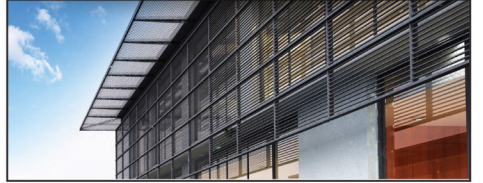

Bull Super High Gloss Enamel

Gloss Enamel with Special Alkyd Resins for Woodwork and Metalwork, Both Exterior and Interior, Such As Doors, Windows, Laths, Fences, Door Frames, or Furniture

- Great area coverage
- Vivid glossy film
- All weathering resistance
- No lead and mercury added, resident-friendly

Top Coats

BegerShield Supergloss Enamel

Ultra Premium Grade Super Gloss Enamel with Special Alkyd Resins

- Higher solid content
- Low odor
- Superior glossy film
- No lead and mercury added
- Heavy weathering resistance, especially tropical climate
- Fungi, algae, and rust resistance

BegerShield Diamond Supergloss Enamel

Ultra Premium Grade Super Gloss Enamel with Special Alkyd Resins for Exterior and Interior

- Strong and smooth film
- Glossy and outstanding
- Excellent heavy weathering resistance
- High solid content, easy to apply, greater area coverage
- No lead and mercury added

BegerCool Supergloss Enamel

Super Gloss Enamel with Heat Reflection

- Heat reflection for 90%, rust resistance with preserving the structural buildings
- Fungi resistance, dirt pickup protection
- Low odor

BegerShield Supergloss Enamel Red Oxide Primer

Ultra Premium Anti-Rust Red Oxide Primer with Special Alkyd Resins for All Metalwork Such As Rails, Doors, or Structures

- Quick drying
- Excellent adhesion power
- Smoothly applicable

BULL Red Oxide Primer

Anti-Rust Red Oxide Primer with Special Alkyd Resins for Metalwork Requiring Exceptional Durability, including Metal Structures, Rails, Doors, Windows, and Machinery

- Quick drying
- Excellent metal adhesion power
- Smoothly applicable

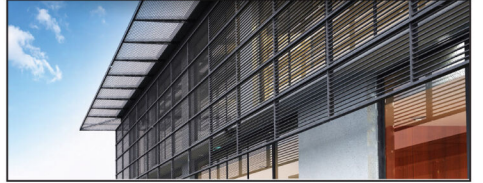

BULL Grey Primer

Anti-Rust Zinc Phosphate Primer with Special Alkyd Resins for Metalwork Requiring Exceptional Durability, including Metal Structures, Rails, Doors, Windows, and Machinery

- Quick drying
- Excellent metal adhesion power
- Smoothly applicable

Anti-Rust Primers

Beger Heavy Duty Coating Products

For Concrete and Plaster Floors

Primer for Concrete and Plaster Floors

For Concrete Floors Beger Concrete Sealer

Epoxy 2K primer, with a mixing ratio (A:B), is a clear finish sealing for plaster and concrete floors, providing great adhesion and deep penetration. And It is suitable for rough plaster.

*Do not use with a clear or transparent top coat

For Polished Concrete Floors Beger Concrete Penetrating Sealer

Epoxy 2K primer, with a mixing ratio (A:B), is a clear finish sealing for plaster and polished concrete floors, providing great adhesion and deep penetration into the surfaces.

*Do not use with a clear or transparent top coat

Top Coat for Concrete and Plaster

Beger Durathane

Polyurethane 2K topcoat, with a mixing ratio (A:B), is designed for heavy-duty coating on factory floors, providing a thin yet durable film that effectively resists chemicals, scrubbing, and impact.

Beger DuraGuard

Epoxy 2K topcoat, with a mixing ratio (A:B), is designed for heavy-duty coating on factory floors, providing a thin durable film that effectively resists chemicals, scrubbing, and impact.

Polyurethane Paint for Concrete and Plaster

Beger FloorGuard PU Scratch Coat

Polyurethane 3K primer, with a mixing ratio (A:B:C), is a thin film water-based primer for plaster and concrete floors.

Beger FloorGuard PU/MF and Beger FloorGuard PU/HF

VOC-free polyurethane concrete coating is designed for factory floors with low to medium resistance to mechanical and physical shocks. Its durable film can achieve a high build thickness based on the specific requirements without dilution with thinner. This coating provides properties for chemical, scratch, impact, and weathering resistance. It is also applicable to wet floors.

Epoxy Resin Paint for Concrete and Plaster

Beger FloorGuard 2100 Seal Primer

Epoxy 2K primer, with a mixing ratio (A:B), is formulated as a high solid primer for application on concrete, brick, or plaster surfaces prior to top coating.

Beger FloorGuard 21 HB and Beger FloorGuard 41

Epoxy 2K coating, with a mixing ratio (A:B), is formulated as a high-thickness film coating that allows for self-leveling and can achieve a high build thickness based on the specific requirements.

Beger FloorGuard Barrier

3K Epoxy resin-hardener-cement system, with a mixing ratio (A:B:C), is suited for surface leveling, enhancing adhesion in industrial systems, and providing moisture protection.

Beger FloorGuard Putty 51

Epoxy putty 2K coating, with a mixing ratio (A:B), is designed for surface leveling by filling small holes or air bubbles. It improves adhesion between the concrete surface and the topcoat, while also preventing pinholes on the topcoat.

For Metal Structures, Tanks, and Pipes

Beger Duramel

Alkyd enamel topcoat 1K is suitable for metal surfaces such as metal structures in various industries, engine rooms, ship decks, walkways, and boat cabins.

Beger Duramel provides high solid content and faster build film. Its glossy clear film comes with properties for great durability, flexibility, adhesion, and weathering resistance.

Beger Unithane B-4000

Polyurethane 2K coating, one of the popular heavy duty coating of Beger, is suitable for all surfaces such as concrete, tile, plaster, wood, and metal, both exterior and interior requiring exceptional durability. It provides a thick film and benefits for anti-rust, fungi protection, scratch and impact resistance as well as acid, alkali, and chemical resistance, including thinner and oil.

Beger Rust Guard

Epoxy 2K rust stopper primer, with a mixing ratio of A:B = 4:1, is a heavy-duty coating with a high solid content of 85%. It provides exceptional adhesion and penetration while offering resistance to chemicals, scrubbing, scratching, and impacts. It is suitable for ferrous & non-ferrous metal surfaces, glossy metal surfaces without wash primer, and new structure or maintenance areas requiring exceptional long-lasting durability.

Beger DuraGuard HB

Semi-gloss epoxy topcoat, with a mixing ratio of A:B = 4:1, offers a high film thickness and can be used as a primer, midcoat, or topcoat. It provides excellent resistance to acids, alkalis, and chemicals, along with superior durability.

Thick Film

It is suitable for interior concrete walls requiring exceptional durability and medium to heavy industries such as factories, buildings, hospitals, hotels, canteens, or laboratories.

Beger DuraGuard

Gloss epoxy 2K topcoat, with a mixing ratio of A:B = 4:1, is designed as a primer, midcoat, and topcoat, providing great acid, alkali, and chemical resistance as well as superior durability.

Thin Film

It is suitable for interior concrete walls requiring exceptional durability and medium to heavy industries such as factories, buildings, hospitals, hotels, canteens, or laboratories.

Beger DuraThane

Gloss polyurethane 2K topcoat, with a mixing ratio of A:B = 4:1, is designed as a primer, midcoat, and topcoat, providing great alkali resistance and superb scratch resistance as well as easy washability.

Thin Film

It is suitable for interior concrete walls requiring exceptional durability and medium to heavy industries such as factories, buildings, hospitals, hotels, canteens, or laboratories.
